Hindi

About Me

n8n AI Automation (3 Months internship on site) With 3 months in n8n AI Automation, I build intelligent workflows that connect tools, automate repetitive tasks, and deploy AI-powered pipelines that scale effortlessly.

Machine Learning (1 Year+) With 1+ year in Machine Learning, I train, evaluate, and deploy models using TensorFlow and PyTorch — turning raw data into intelligent systems that solve real-world problems.

Generative AI (1 Year+) With 1+ year in Generative AI, I leverage LLMs, diffusion models, and tools like Stable Diffusion and GPT to automate creativity and build powerful AI-driven applications.

PROJECTS

n8n AI Automation

- Whatsapp Agent Customer Support
- Telegram Calendar Bot
- Outlook Invoice Manager
- Outlook Job Manager
