About Me

I'm Akash and I'm a Video Editor
With 1 year of professional experience in DaVinci Resolve and 3 months in Adobe After Effects, I specialize in transforming raw footage and scripts into compelling visual stories. I leverage cutting-edge AI tools like Veo 3, Hugging Face, and Kling to enhance creativity and efficiency, delivering high-quality edits that captivate audiences. My approach combines technical precision with artistic vision, ensuring every project stands out. Whether it's color grading, motion graphics, or full-scale video production, I bring ideas to life with a fresh, modern touch.

WORK EXPERIENCE

- **DaVinci Resolve (1 year experience).**
- **Skilled in After Effects (3 months, continuously improving).**
- **Experience with AI video tools: Veo 3, Hugging Face, Kling.**
- **Strong sense of storytelling, pacing, and visual composition.**
- **Color grading and audio syncing expertise.**
